Dear Sir/Madame

Ref: Letter of Reference

We would like to put in writing about the service and customer care we receive while using JJ Storage Systems.

There quality of work is to a very good standard and they keep to the time scales promised.

They give good sound advise with storage designs with saving the customer costs at the same time making them good value for money.

In fact on one design for Kent Highways Services they managed to save us £2000.00 on supplying racking for an Archive Room.

We would not hesitate in using JJ Storage Systems services again.

Yours sincerely

Steve James
Operations Manager
